## Introducing Bug Block® from Absorbine®

It's the true professional strength pest control in the big, bold purple bottle. Bug Block is raising the bar by killing and repelling more than 70 species of pests! That includes all the common species of flies, plus hard-to-kill threats such as Scorpions, Black Widow Spiders, Ticks, Gnats, Cockroaches and even Mosquitoes, including the *Culex* species which has been known to transmit the West Nile Virus.

Unlike some insecticides, it doesn't have to be applied daily. Bug Block's effectiveness lasts for 7 to 14 days after the initial treatment.

Your customers will save \$5.00 on the gallon-size or \$3.00 on the quart-size of Bug Block with our limited-time mail-in rebate offers conveniently pre-attached to every bottle. Absorbine also takes care of all redemptions so you can simply listen to the cash register ring!

For details, visit your Absorbine dealer or [www.absorbine.com](http://www.absorbine.com)
