

BELLY UP TO THE BAR

You've heard of power bars for people. Now, a company in Washington has developed one for horses. In addition to being packed with a variety of ingredients beneficial to horse health, the bars are portable and would work well as a countertop impulse buy item. The bars come in four formulations: one each for joint support, stamina, overall health and flexibility. www.4horsepower.com

HOOFING IT

Grand Hoof Pellets is the latest addition to the Grand Meadows Nutritional Products lineup. It offers the convenience of a pellet, the serving size of a powder and a powerful combination of ingredients. www.grandmeadows.com
