WHAT'S NEW—HORSE HEALTH

Joint Flexibility

Flex+ joint supplement, now available in the original powder and the new pellet form, has been clinically proven to help strengthen joints and cartilage

in horses and support a larger range of motion. The supplement contains Glucosamine, MSM, Yucca, vitamins and minerals, and is fortified with nutrient rich, stabilized rice bran to aid absorption. From Absorbine.

A Years' Supply

Zimecterin Gold is now available in the All-Season Pack, helping horse owners ensure they are equipped to provide an entire year of protection from damaging parasites that can do permanent damage to a horse's digestive system when allowed to go unchecked. From Merial Ltd.

Stops Fading

Vetrolin Conditioner with Solar Guard Color-Keeper protects horse's mane, tail and coat from harmful UV rays and fading for up to eight days. Intense moisturizers help restore strength and elasticity, and increase manageability. The conditioner is the newest addition to the Vetrolin line of products from Farnam Cos.
