

TRIED 'n TRUE — PRODUCTS PUT TO THE TEST

PRODUCT: Accent Graduated Design Horse Halters.

MANUFACTURER: Coastal Pet Products.

WHAT IT IS: A horse halter designed for perfect fit and high visibility.

WHO WOULD BUY THIS PRODUCT: Horse owners who find themselves looking for their horses in the dark.

COMMENTS FROM OUR TESTER: "This halter was a lifesaver this past winter," said editor Paul Wahl. "My American Quarter Horse Jack is a dark bay with black mane and tail. He's boarded in a paddock near the main barn, but in the north country where we live, it's completely dark by 4:30 p.m. most of the winter."

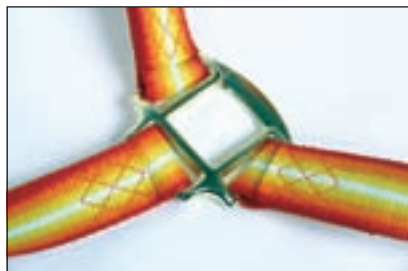

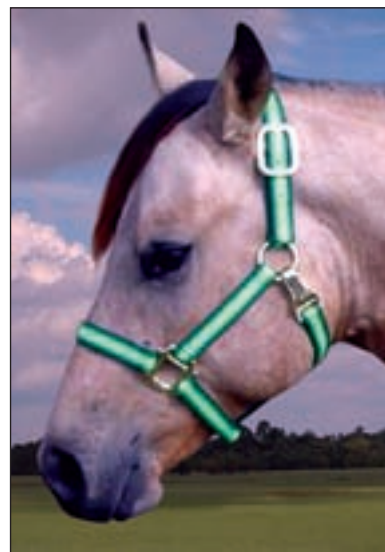

Wahl said that he often has to find Jack and bring him inside for grooming and riding in the dark, with just the light

on the side of the barn as a beacon.

"He's out there with several dark-colored horses and has a couple of things to hide behind, so seeing him isn't easy," Wahl said. "With this halter, he stuck out like a light bulb in a dark room."

MORE INFORMATION: www.coastalpet.com 

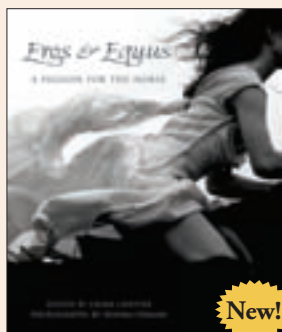

The Accent Graduated-Design Horse Halter also features the patented Equi-Snap, which won't bend, rub the horse or catch on fences. Quality hardware throughout is a feature of the halter.
