

RIDER TESTED. HORSE APPROVED.

MADE IN THE U.S.A.

Made at our Mt. Hope, Ohio facility, this pad offers the ultimate in American craftsmanship and quality.

THE BEST MATERIALS

Shock-absorbing 1/2" Weaver memory foam and conforming 1/2" orthopedic felt offer unsurpassed performance.

RUGGED PROTECTION

Premium quality, distressed top grain wear leathers offer protection for the life of the pad.

HIGH DENSITY FOAM OUTPERFORMS THE COMPETITION

The finest 1/2" Weaver high density memory foam rebounds after every use and will not break down over time like the competition. It conforms to your horse's back, reduces pressure points and absorbs shock for maximum protection. Top quality layers of Weaver exclusive 100% New Zealand wool on the top and 1/2" orthopedic felt on the bottom give you unrivaled performance. The felt bottom absorbs moisture while minimizing heat, ensuring a cool, comfortable ride every time.

The Complete Weaver Exclusive Saddle Pad Line

We also offer gel, contoured felt, work and all purpose saddle pads to meet your customers' needs. Visit www.ridethebrand.com for a look at our entire line.
