

# Web Extras

[www.tackntogs.com](http://www.tackntogs.com)

## Industry News

Our web site is constantly evolving to better serve our readers. Recently, we re-organized the way we display Industry News items, making it easier for you to find the items you want, when you want them. The latest items are now featured on our home page, just to the right of the current issue. Click on "More Industry News" to see postings from the past three years. Staying current is just a click away, with items outside the trade arena also featured.

## Business Sense

Keep up to date with the most recent information available from organizations such as the National Retail Federation and the Small Business Administration. Articles posted weekly show you how the outside world is interacting in today's retail environment.

The 2008-2009 Buyers Guide is available online too. Just log onto [www.tackntogsbuyersguide.com](http://www.tackntogsbuyersguide.com) for a searchable, electronic version of the most comprehensive directory in the equine trade industry.

## Online Archives

Can't find that back issue with an article that you need right now? PDFs of Tack 'nTogs issues from the past five years are always available on our web site in the Online Archives. Issues are searchable by keyword for your convenience.

## Tack 'n Togs On You Tube

That's right, Tack 'nTogs has its very own YouTube channel. See interviews with industry professionals, videos of market happenings and footage of photo shoots linked to YouTube right on our home page!

## It's Show Time!

Look for coverage of the equine trade industry's January and February winter markets on our web site. Fun and interesting photos will be posted of WESA's Denver Market, AETA's International Trade Fair produced by Hopper Expos in Baltimore, and the new WATexas Market in Fort Worth, produced by Tully Markets. See the people, the products and the happenings at these thriving events that provide places for retailers to connect, buy, learn and succeed!
