

“We have so many new boot styles and colors this year, but my favorite ones are the Rustic Black Smooth Caiman with the double stitching and stacked welt. Square-toe are my favorite kind of boots. We are committed to the best quality. We offer matching belts, wallets, cell phone cases, jackets and purses, just to mention a few, in a variety of exotic skins and a selection of colors.”

Roger Silva, Los Altos Boots

“I like the rough-and-tumble

type leather we used in these boots, plus there are really no other boots like them in the market. We try to build product for our target customer. A woman between 18 and 35 who likes Western boots with a rock and/or fashion element in them. The whole Western lifestyle image is definitely getting stronger. It’s not on fire, but it’s growing for sure. I think it has something to do with a movement towards the ‘Americana’ look.”

Tony Sugden, Oak Tree Farms
